A RESPONSE TO THE MESSAGE.

The pretense of three or four narrow-gauge Republican Senators that they are so concerned about the dangerous Treasury surplus as to be unwilling to take a holiday recess, is the greatest exhibition of pure "gall" lately seen in the Senate.

Throughout four successive sessions of Congress the Republican members have stood solidly against even giving consideration to the subject of tax reduction. During all this time they have introduced, pushed and voted for the most reckless appropriations, with the avowed purpose of spending the surplus.

Their sudden awakening to the demand o the people for relief shows that the President's Message has had its designed effect,

PARTY PLATFORMS.

"What are platforms for?" asks an ingenuous morning contemporary.

According to the old Whig relies, who call themselves "Protectionist Democrats," platforms are made to catch voters with, and then to be broken.

President CLEVELAND's idea is that platforms are made to express a party's principles and outline its policy, and should be honestly carried out when the party obtains power.

VIRTUES, NOT FAULTS.

At the working-women's meeting last night one speaker, objecting to the remission of fees to any member of the proposed union said "women are so proud and sensitive-it's their great fault."

We beg the fair orator's pardon, but the pride and sensitiveness of womankind are not faults at all. They are among her greatest virtues. They are needed to offset the lack of pride and the callousness which prosaic and humdrum lives develop in so

It is because of the working-women's pardonable pride and her sensitiveness to unjust treatment that they are endeavoring to organize for their own protection. If their employers and masculine co-laborers had more of these qualities, the scales of Justice would balance more evenly.

ROTTEN-RIPE.

The morning news of the brutal and scandalous conduct of another English Duke, in keeping his mistress at his bedside during an alarming illness, to the exclusion of his famfly, and finally going off with the woman for a long cruising debauch on his yacht, shows 'np "the nobility " in colors that can hardly prove attractive to its worshippers in this

The assumption of superiority by the aristoeracy of England cannot much longer withstand the demonstrated incapacity to govern wisely and justly, and the repeated disclosures of unspeakable moral rottenness that have come in the last few years.

The titled young nincompoops are rotten before they are ripe, and the titled old duffers rot after they ripen.

MRS. CHOWLEY'S HARD LOT.

There never was a more pitiable case of the wife suffering for the husband's misdeeds than that of Mrs. Chowley. While CROWLEY himself is growing fat in Sing Sing, she and the little ones are continually struggling with the wolf at the door.

Mrs. Chowley should at least be assisted to a comfortable self-maintenance. This is a good season for good works. THE WORLD will gladly again receive contributions for her relief.

"THE LADIES' WINDOW."

The wave of reform, which out in Kansas has already engulfed chewing gum and slang, and which over in New Jersey threatens to undermine the supremacy of bangs and bustles, is now eddying about that popular institution of the New York Post-Office known as the "Ladies' Window."

It is urged against this " window " chiefly that it affords romantic young misses an opportunity to carry on clandestine correence. Shades of Juliet! do the iconuppose that the abolishment of

But it would not be amiss to reform the name. Call it the "Women's Window." There's enough style about that for anybody.

New York's militia deserves better treatment than this. If it is decided that the Ninth must wait two years for its new armory, the regiment should be immediately supplied with a better temporary drilling hall.

Don't neglect our soldier boys.

Secretary FAIRCHILD has done the fair thing in giving the Treasury Department a fourth man in the Custom-House impliand Custom-House employees a holiday on the day after Christmas and New Year's. It would be awfully mean in Uncle Sam to deprive his servants of an opportunity to get some merriment out of the holidays. Now let the other departments do likewise.

What's all this bosh about American ancestry? There is certainly a good deal more style about coming over in a Cunarder than in those leaky old packets, whose pumps were going half the time to keep them afloat.

Treasury Agents Looking for the Clerk the Custom-House Who Helped Inspector Byrnes's Prisoners to Steal the Silk-Suspicion Narrowed to Half a Dozen Men-Taken to Court To-Day and Remanded.

Collector Magone has not yet entered com plaint against the silk thieves, Andy Roberts, Michael O'Brien and George Williams, who were caught by Inspector Byrnes.

Last night the three men occupied cells at Police Headquarters, and a more disheartened trio than they were this morning it would be hard to find.

Despite the efforts made to ascertain the Custom-House clerk who is supposed to have been in collusion with the thieves, the detectives are as much in the dark now as ever. Inspector Byrnes scouts the idea that there was such collusion, or he appears to, at

least. He knows nothing about it, he says,

Early this morning Gen. Foster, Assistant United States District-Attorney, despatched two trusty United States officers to the Custom-House to confer with the Collector. Their discussion was private and consumed the best part of an hour. From all that can be learned it was decided not to make any complaint yet, but to wait further develop-

ments. Clerks in the Appraiser's office were sum moned to Inspector Byrnes's office this morn

ing, to identify the goods if possible.

When this is done and the accompanying details of that investigation are completed, it is likely that Collector Magone will make the ormal charge.

MRS. BURGESS'S STRANGE STORY.

An Investigation by the Police to Learn She Was Drugged and Robbed.

Inspector Williams has begun an investigation to learn the true inwardness of the alleged drugging and robbery of Mrs. Mamie Buress. of 175 Franklin street. Greenpoint.

The Mulberry street precinct returns merely mention the fact that Mrs. Burgess was taken ill in a telegraph office on Grand street, near the Bowery, and was sent to St. Vincent's Hospital in an ambulance. The physician in harge at that institution declares that Mrs

Burgess was suffering from the effects of a drug, not from excessive use of liquor. The local police regard it as singular that the woman was bareheaded when she entered the telegraph office, claiming that her \$15 hat as well as her pocketbook had been stolen by the "unknown man," to whom she was introduced on Tuesday evening by a lady, and whose name she could not remember. The police theory is that a prudent married woman does not visit restaurants and drink

The fact that Mrs. Burgess stayed all night in the telegraph office will also be investigated. will also be investigated.

REMARKABLE ATTEMPT AT EVICTION IN NEWBURYPORT, MASS.

The Family of Daniel Johnson Being Driven From the House They Have Occupied For Thirty Years-The Chimney Choked So that No Fire Could Be Built-Six Per sons Huddled Together, in One Room.

[SPECIAL TO THE WORLD.] NEWBURYPORT, Mass., Dec. 22.—The people of the South End are deeply excited over the attempted eviction of the family of Daniel Johnson from premises on Marlboro street occupied by them for thirty years.

The Johnsons have occupied the premises rent free during this time, by reason of a son being heir-at-law at the decease of the owner.

It seems that a short time ago Miss Abbie A. Smith, a relative of the Johnsons by intermarriage, claimed to have purchased the life-interest of the owner, and since then has tried in various ways to oust the John-sons. The matter culminated on Monday, when George Jenkins, of Lynn, who claims to have leased the premises, put in an appearance and demanded that the Johnsons should move out immediately.

The head of the family, Daniel Johnson,

being ill, and a daughter also being confined to a bed, they refused to move. Jenkins and two assistants proceded to put the household goods into the street. The

Finding they could not be evicted, Jenkins placed his assistants in a room overhead, where they remained, their food being sent them from Miss Smith.

The Johnsons, six in number, huddled in the parlor Monday night, keeping warm by means of a small kerosene stove. Tuesday the neighbors furnished them fuel, but when they started the fire it was found that the they started the fire it was found that the chimney had been choked by covering the

DOGS MUST BE REGISTERED.

Their Pedigree Must be Known Before The Enter a Bench Show.

All the kennel clubs of any importance in the country belong to the American Kennel Club Association. This club has lately caused something of a ripple in dog circles by following the example of the English Kennel Club in making the registration of dogs compulsory.

This registry is the official record of all logs entered at bench shows, or of all straight-bred dogs.

The American Kennel Club has conducted this registry for a year, with the result that some 2,000 dogs are on its rolls. The fact of making it compulsory will have the effect of elevating all the bench shows of the country to a higher plane of excellence. The regis-

The New England Kennel Club and the New Haven Kennel Club have resigned from the Association. The former will probably recall its resignation, as the Fox Terrier Club and the Collie Club will not have their stakes decided at the Boston bench show otherwise, since any prizes that they might win would not be be recognized by the association of the American Kennel Club.

As the Collie Club contemplates a prize of \$500, open to all, it would be a great card for the Boston show and would attract many entries. It is the largest prize yet offered for dogs.

Policeman Surre Accused of Clubbing a Hackman for Asking for McGlory's Arrest.

Billy McGlory, the notorious dive-keeper, has come before the public again in an unen viable manner.

Meyers demanded that he arrest McGlory, when Surre drew his night stick, ordered the hackman to get off the post at once and struck him several blows with his club, to the infinite delight of Billy McGlory.

Meyers drove to the Elizabeth street police station and says that Sergeant Thompson very reluctantly gave Surre's name and declared that he did not know his number. When told what had occurred, he declined

He is also having his Victoria and coach made by a Michigan firm, and even the harness must come from Michigan. It is suggested that he may change the royal names of the horses to Detroit and Wayne, after this city and county. He will take his servants from Michigan, and will set up in Washington a pretty complete Michigan establishment. A Sensation in Boston Streets with a Love Story Behind It. ISPECIAL TO THE WORLD, 1 Boston, Dec. 22 .- " Catch that woman there ; she's falling!" and a couple of young men burst from the throng on Washington

The lady was carried into an adjacent door, way, and simple restoratives applied. crowd collected to watch the efforts at resuscitation. Suddenly a woman, pushing her way into the group, whispered to an officer

that the handsome woman was dying, and would live but a few moments if something was not immediately done.

Dr. Thayer was called, and discovered that the woman was under the influence of a powerful poison. As she was lifted into a hospital ambulance two pieces of paper fell from her dress and an officer gathered them up. One of them read:

Of them read:

Darling Alfred: When we were married three short years ago I little thought that anything but death would part us. How could you do so? You know how much I loved you, and nobody will never know of the grief I have suffered the last two days, Good-by for ever and ever.

The other paper was a marriage certificate tied with a white ribbon and signed by a well-known clergyman. It was subsequently learned that the full name of the woman was Sadie Sidelinger, aged twenty-six, and living at 82 Poplar street. The moment she recovered sufficiently to speak, early this morning, she said to an attendant, with almost a smile upon her lips:

"Don't bother with me for I shall try to die again just as soon as you let me go free."

The woman's husband is Alfred R. Sidelinger, who, it is alleged, fled from the city while his wife was visiting relatives in Providence. He is supposed to be in Appleton, Me., as he wrote to her from that place a few days ago, saying that he was tired of his wife and had deserted her. Exciting Race Between Railroad Trains. [From the Philadelphia Times.]

A gentleman whose business calls him to New

York two or three times a week gives a graphic description of a race between two railroad trains and its result: "I was coming over from New York the other day by the Pennsylvania road," said he, " and as our train passed the repair shops said he, "and as our train passed the repair shops this side of Jersey City and dashed out into the meadows we found ourselves neck and neck with a Morris and Essex train running at full speed. The two roads, you know, run side by side along there for two or three miles, and there is a race nearly every day. I knew there was one on then and I rather enjoyed the prospect. The Morris and Essex engine was working like mad; the spokes in its driving, wheels were flashed into one, and steam and little jets of water flew from its cylinders as the piston-rod plunged in and out. It erept steadily ahead for a minute, but our engine soon settled down to its work, the track flew faster and faster behind ne and our cars quievered with the splendid effort we were making. Every man of us grew reckless with the excitement of the race at sixty miles an hour, and not one of us, perhaps, thought of what the consequences might be.

"Gradually our train forged ahead, and as I took up my paper again I saw a neatly dressed man, carrying a bundle tied up in a red handkerchief, walking on the track in front of the Morris and Essex train. Before I had time to think of his perd a shrill whistle was blown by the engine, which was even then upon blin, and he was thrown twenty feet away, dead. As we passed the other engine I had noticed its fireman standing with folded arms, facing and looking at us. It was a part of his duty to look out ahead, and if he had not been so much absorbed in the race the unfortunate man might not have been killed. I know from my own feelings, while it lasted, that a man can't give his attention to anything else during such a race." this side of Jersey City and dashed out into the
